DESIGNED FOR RENAULT TRUCKS VEHICLES OVER 5 YEARS

Renault Trucks range is renowned for their reliability, longevity and efficiency, mile after mile, year after year.

Higher mileage, heavy duty operations, harsh environments and poorly maintained roads can lead to increased wear and tear, it is vital to keep your older truck in the best working condition to ensure the safety of drivers and other road users, while minimising the risk of costly breakdowns and repairs.

WITH KM+, RENAULT TRUCKS TAKE YOU FURTHER

Specially designed for Renault Trucks vehicles of five years old and over, or with mileage of more than 500,000km, KM+ helps you understand the condition of your vehicle with a full inspection, undertaken by Renault Trucks' expert technicians.

We issue a health status report and recommendations to keep your truck operating at optimum performance for maximum uptime and efficiency.

For fleet operators KM+ will:

- Identify potential issues
- Help prevent major repairs
- Minimise downtime
- Extend vehicle lifespan
- Ensure safety and compliance
- Increase resale value of your vehicle

There are three levels of checks undertaken by Renault Trucks fully qualified technicians using advanced diagnostics and provide vehicle health status report and recommendations.
